Re: Dorset Green Tech Park. Seed preservation.

Dear Sirs,

On behalf of Anvil Grounds Maintenance Ltd, I would like to thank you for the extreme care you have taken in the preservation of Pepperbox Poppy flowers during the ongoing demolition of the cinema building.

These were in flower with the seed pods forming when you commenced the project. These have remained undamaged and been allowed to complete the seed pod ripening. This has enabled our staff to harvest the seed and introduce it to other parts of the site. All this despite them being within 1 metre of the walls being dismantled. Although not rare these are unusual on the site and will now continue to flourish.

With sincere thanks,

David Watkins-Jones. For Anvil Grounds Maintenance Ltd.
