

E-Learning

Registered site
www.ccscheme.org.uk

During the current times, COVID-19 is affecting the way we work.

As we cannot provide training on our sites at the moment, we would like to recommend the E-Learning courses available on the Considerate Constructors Scheme *“Best Practice HUB”*. The aim of these E-Learning courses is to increase your knowledge and understanding regarding the Considerate Constructors Scheme, their Code of Considerate Practice and wider industry issues. This is an excellent way to continue learning and is very beneficial.

DIRECT ACCESS TO THE COURSES
(JUST POINT YOUR PHONE CAMERA AT IT)

<https://ccsbestpractice.org.uk/courses/>

When you complete any course and pass you will receive a certificate that will count for your Continuing Professional Development (CPD). Please send a copy of your certificate to your line manager or the site environmental advisor so this can be filed and kept on our training records.

There are currently 16 Courses available on different topics. Invest in yourself!
