

INNOVATION: Westvale Innovative Mobile HOT WORK KIT

The dual hot work kit ensures that you are prepared for all eventualities, with a 2kg Powder and a 2 litre Foam extinguisher, in addition to a 1.2m x 1.8m fire blanket. The Hot works permit can be stored along with Fire blanket

Specifically designed for Sub contractors who are required to perform Hot Works on-site, the kit also includes a robust steel carry basket to make it easy to have everything you need ready to take with you.

Both FireChief extinguishers are BSEN3 approved, and ensures that you are effectively prepared to tackle Class A, B, and C fires involving general combustibles such as woods, paper, and cloth, along with flammable gases and liquids. The large high-performance industrial fire blanket is also approved and tested to BSEN1869:1997.
