

INNOVATION: Westvale MEWP CHARGING POINT with 2KG Automatic Fire Extinguisher

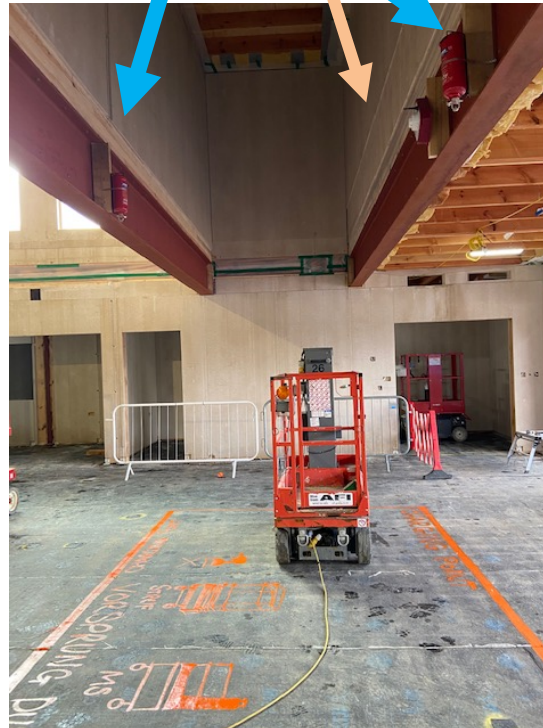

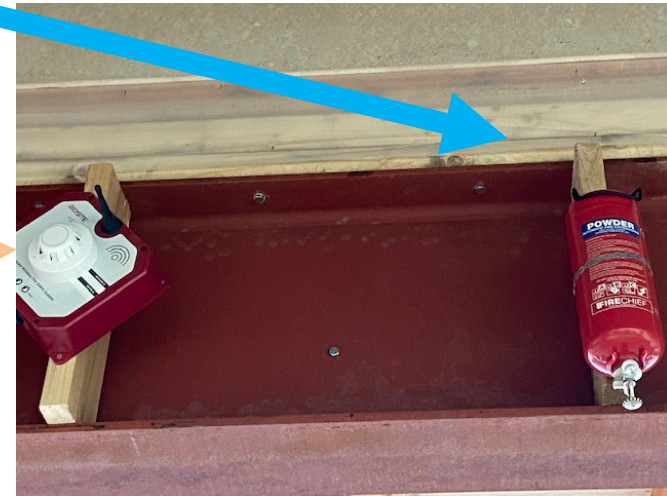

**MORGAN
SINDALL**

Powder Fire Extinguisher
with Sprinkler head (2no.)

Biosite Heat
detector

As a team at Westvale we have introduced an innovative solution to managing fire risk internally within the Timber frame building by installing a MEWP charging points positioned internally within the hall

We have marked out a designated Charging station for which 2 x 2kg Powder fire extinguishers with sprinkler head are positioned above with a heat detector which is connected to the wireless Biosite fire alarm system

Westvale Park
Primary Academy

Designated charging Point
located in the Hall
